Stock markets decline for 2nd day

PTI ■ MUMBAI

Benchmark equity indices Sensex and Nifty declined for a second straight day on Friday due to selling in banking, FMCG, and pharma shares amid a negative trend in Asian and European markets. The domestic markets traded weak post the RBI monetary policy and the unexpected announcement of reducing cash in the banking system.

The 30-share BSE Sensex fell by 365.53 points or 0.56 per cent to settle at 65,322.65. During the day, it tanked 413.57 points or 0.62 per cent to 65,274.61.

The NSE Nifty declined by 114.80 points or 0.59 per cent to end at 19,428.30.

From the Sensex pack, IndusInd Bank, NTPC, Asian Paints, Hindustan Unilever, JSW Steel, Tech Mahindra, Bajaj Finance, Infosys, Wipro, ICICI Bank, Bajaj Finserv, HDFC Bank and Tata Motors were among the major laggards.

HCL Technologies, Power Grid, Titan, Reliance Industries, UltraTech Cement, Tata Steel, State Bank of India and Mahindra & Mahindra were the gainers. "The domestic market continued to experience selling pressure, with banking stocks extending their decline in reaction to the RBI's liquidity absorption measures," said Vinod Nair, Head of Research at Geojit Financial Services.

"The escalating concerns about inflation further weighed on domestic market sentiments. Despite the US CPI coming in lower-than-expected and the UK GDP beating estimates, global sentiment remained unfavourable," Nair

added. The Reserve Bank of India (RBI) on Thursday left its key interest rates unchanged for a third straight meeting but signalled tighter policy if food prices continue to drive inflation higher. The hawkish stance was also reinforced by the unexpected announcement of reducing the cash in the banking system by raising the incremental cash reserve ratio (I-CRR) to 10 per cent on the incremental NDTL (net demand and time liabilities) over the last three months.

This will help in absorbing a large part of the excess liquidity created through the return of the Rs 2,000 notes and the large dividend to the government from RBI.

"Markets traded under pressure and lost over half a per cent, in continuation to the prevailing corrective tone," said Ajit Mishra, SVP - Technical Research, Religare Broking Ltd.

In the broader market, the BSE smallcap gauge declined 0.31 per cent and midcap index fell by 0.13 per cent. Among the indices, financial services fell by 0.77 per cent, bankex declined by 0.73 per cent, FMCG (0.72 per cent), auto (0.70 per cent), consumer discretionary (0.53 per cent) and metal (0.52 per cent).

Industrial production growth dips to 3-month low in June

PTI ■ NEW DELHI

India's industrial production growth declined to a three-month low of 3.7 per cent in June mainly due to poor showing by the manufacturing sector, according to the official data released on Friday.

The factory output growth measured in terms of the Index of Industrial Production (IIP) stood at 12.6 per cent in June 2022 on account of a lower base effect. The previous low of IIP was at 1.9 per cent in March 2023. Thereafter, it rose to 4.5 per cent in April and further to 5.3 per cent in May.

During the first quarter (April-June) of 2023-24, the IIP growth works out to be 4.5 per cent, down from 12.9 per cent in the corresponding period a year ago.

"The growth rates over corresponding period of previous year are to be interpreted considering the unusual circumstances on account of COVID 19 pandemic since March 2020," an official statement said. As per the IIP data released by the National Statistical Office (NSO), the manufacturing sector's output grew 3.1 per cent in June 2023 against a 12.9 per cent a year ago. Power generation rose 4.2 per cent in

June 2023 compared to 16.4 per cent a year ago. Mining output rose by 7.6 per cent during the month under review against 7.8 per cent in the year-ago period. As per use-based classification, the capital goods segment grew 2.2 per cent in June this year compared to 28.6 per cent a year ago.

Consumer durables output during the month declined by 6.9 per cent against a 25.2 per cent growth in the year-ago period. Consumer non-durable goods output increased by 1.2 per cent compared to a growth of 2.9 per cent a year earlier. Infrastructure/construction goods posted a growth of 11.3 per cent over a 9.4 per cent expansion in the same period a year ago.

The data also showed that the output of primary goods logged 5.2 per cent growth in the month against 13.8 per cent in the year-ago period.

Sebi simplifies KYC process, rationalisation of risk management framework at KRAs

PTI ■ NEW DELHI

To ease the onboarding of clients for dealing in the securities market, Sebi on Friday simplified the KYC process and rationalised the risk management framework at KYC registration agencies (KRAs).

The records of all existing clients, whose KYC has been completed based on officially valid documents other than Aadhaar, would be verified within a period of 90 days from

September 1, 2023, Sebi said in a circular.

For the interest of investors and ease of transaction in the securities market, the client will be allowed to open an account with intermediaries and transact in the securities market as soon as the KYC (Know Your Client) process is completed, Sebi said.

Subsequently, as a part of the risk management framework, the KRAs will verify attributes such as the PAN,

name and address of all clients within two days of receipt of KYC records. Additionally, the KRAs will verify the client's

mobile number and e-mail ID.

While clients in whose case, attributes of records cannot be verified, will not be allowed to transact further in the securities market until the attributes are verified and the validated records would be allowed portability -- the client need not undergo the KYC process again when he/she approaches different intermediary. The intermediary will fetch the validated records from the KRA database.
